Experts in herbal pet care

With the colder months approaching, it's the perfect time to focus on keeping your pets healthy, happy and comfortable. At Dorwest, we've been caring for pets naturally for over 75 years. While a lot has changed since we first began, some things never will, like our passion for herbal pet care, our commitment to the highest quality ingredients and our dedication to the wellbeing of your four-legged family members.

This year brought something special for us, the launch of our brand-new **Probiotic Plus** for dogs!

Introduced to our digestive range to provide daily microbiome support for optimal gut health, utilising the benefits of a pre, pro and postbiotic - it quickly became a customer favourite. With the Probiotic Plus selling out faster than we expected and receiving incredible feedback from our customers - we're so thrilled that so many dogs (and their humans) are already feeling the benefits.

Dorwest remains proudly in our family with the help of our three much-loved whippets, our in-house product testers and professional snugglers. With every product we make, we combine traditional herbal knowledge with modern science to help pets live healthier, happier lives. In this latest catalogue, you'll find our trusted favourites, helpful guidance and a few seasonal tips to keep tails wagging all winter long. Covering everything from stiff joints due to the damp weather to everyday essentials for the colder months with our skin and coat support.

We will be continuing regular Facebook and Instagram Lives, discussing the top issues we see in pets and what natural options there are to help them. This includes loud noise anxiety during October and November due to fireworks - we can't wait to see you there!

Thanks for being part of our Dorwest family and remember, our expert and friendly team is always here to help.

Jo & Ben

Proven to calm

Our **Scullcap & Valerian Tablets** are proven to calm anxiety, from a trial conducted within a University of Cambridge Department of Veterinary Medicine degree. Participants' dogs used Scullcap & Valerian for 28 days, with 87%* seeing less noise anxiety symptoms than before.

It can be so distressing for everyone when your dog is afraid, especially when their reaction is extreme. Worse still, with 'fireworks season' becoming longer and less predictable, managing your fearful pet is more challenging than ever. You're not alone either, with noise phobias estimated to affect more than 1 in 5 dogs in the UK. (1)

The good news is, there are steps you can take to help your pet and restore calm in your household during this time. Preparation is key, so if you know your pet is afraid of fireworks, or suffers with another noise phobia, it's a good idea to start planning ahead – ideally at least a month in advance of the expected event, especially for severe phobias. During this time, our **Scullcap & Valerian** tablets are proven to calm anxiety and help to naturally relax your pet. Best results are seen

when used alongside gentle and consistent behavioural training, such as noise desensitisation programmes.

For situations where you are 'caught out', for example thunderstorms or an unexpected fireworks display, our **Valerian Compound** is a great short-term and quicker-acting option.

It can also be used alongside Scullcap & Valerian as a top-up, if needed.

The active herbs in these products help to naturally support the calming pathways within the nervous system, reducing anxiety without immobilising muscles or causing drowsiness. They don't make pets doozy or wobbly – in fact they are widely used for agility and show dogs when they need to be alert and focussed, but calm.

(1) Reference: www.veterinary-practice.com/article/the-treatment-of-noise-phobic-dogs

*2022 trial conducted within University of Cambridge Department of Veterinary Medicine degree included 46 participants and their dogs using Scullcap & Valerian Tablets (unpublished data, full data available on request).

Valerian Compound

Help calm your frightened pet quickly and naturally, with our easy to give liquid. Ideal for unexpected events or to use alongside our Scullcap & Valerian Tablets as a top-up.

RRP from **£12.90**
(see page 48)

Scullcap & Valerian Tablets

Use the power of nature to tackle your pet's fireworks fear with no drowsiness. For best results, use for at least one month.

RRP from **£12.90**
(see page 47)

Keep them moving well this winter

Our natural joint care range has been developed to support all dogs – young and old, no matter where they are on their joint health journey.

All dogs, regardless of age or breed, will experience wear and tear on their joints throughout their lives. This can lead to joint problems in the future, causing pain and stiffness, taking the joy out of movement!

Some dogs are also just more prone to joint issues due to developmental abnormalities or previous injury. This is why our range has been specially developed to provide support for all dogs, because it's never too early (or late!) to start looking after your dog's joints.

Our joint products are designed for different joint health stages:

MoveWellia® is for dogs actively experiencing joint health challenges

- with a unique blend of natural active compounds which are each individually renowned for their joint supportive properties. It delivers the highest concentration of the joint health super-star, Boswellia, for powerful, natural support of your dog's movement, alongside Glucosamine, Chondroitin, Celery seed, Vitamin C, Zinc and Hyaluronic Acid.

RRP from **£20.90** (see page 44)

JointWell® is for dogs looking to maintain joint mobility - packing in joint-friendly natural ingredients to promote a healthy joint environment including Glucosamine and Chondroitin, Vitamin C, Zinc and Hyaluronic acid, allowing free movement. Protecting your dog's joints now is the best way to keep them moving long into the future, and that's exactly what JointWell® is designed to do. So, whatever the joint health challenge – we've got it covered!

RRP from **£14.90** (see page 41)

Everyday essentials

Are you looking for what you should give your dog to help keep them healthy every day?

Our natural, herbal supplements can be added to your pet's diet, to help support their overall health and immune system.

Our all-round **Keeper's Mix**® supplements are unique formulations that contain natural antioxidants, vitamins, minerals, chlorophyll, fibres and bioactive compounds; helping to super boost your dog's health.

Keeper's Mix® Sensitive is an even gentler and milder flavoured version of our best-selling original, ideal for puppies, kittens or those with known sensitivities. It's also great for supporting your dog's coat, with kelp seaweed helping to encourage healthy growth - a key ingredient that's particularly beneficial during the colder months.

If you are seeing dry, flaky skin or a dull coat, our **Omega Star**® is a showstopping oil that's easily added to your pet's food. With a carefully crafted blend of plant oils that is naturally high in Omega 3 and 6 to help nourish the skin and coat - also ideal to help combat dry skin in winter.

Packed full of natural active compounds to promote general health and support the immune system, **Garlic & Fenugreek** tablets are high in antioxidants to neutralise free radicals and help to maintain general cell health, as well as compounds that are proven to help the body remain naturally strong against disease, parasites and infectious agents. Gentler than ever with black aged garlic, to naturally support all-round health, maintain a strong immune system and promote healthy skin.

Lastly, our **Roast Dinner Toothpaste** has been specifically developed for pets with veterinary professionals to help keep your pet's mouth and teeth healthy with a low-foaming and gentle formulation. This toothpaste cleans teeth without damaging enamel, with the Sage oil acting as a potent antiseptic and antioxidant (to neutralise free-radicals), helping to keep those gums fresh and healthy.

Keeper's Mix® RRP from **£15.90** (see page 41)

Keeper's Mix® Sensitive RRP from **£15.90** (see page 42)

Omega Star® RRP from **£24.90** (see page 45)

Garlic & Fenugreek Tablets RRP from **£10.90** (see page 40)

Roast Dinner Toothpaste RRP **£13.90** (see page 53)

Supporting pigmentation & coat

With winter just around the corner, now is often the time coat condition can suffer due to the weather and pigmentation can also reduce due to the lack of sunlight.

Sometimes called 'winter nose', a drop in pigmentation can occur on the nose, as well as eyes and mouth during the winter months, and in bitches following a season or pregnancy. This fading is generally considered to be due to a shortage of minerals, particularly iodine and iron. Coat can also suffer during the winter months, thinning or growing more slowly.

Elderberry & Nettle extract is specifically formulated to assist with this issue as it has high natural levels of both these minerals and is also the fastest route to regaining pigmentation. This supplement is added to the feed daily and can be given at any time of year and with any feeding regime without affecting the dietary balance.

TOP TIP

Many owners use Elderberry & Nettle initially to regain pigment and then to swap to Kelp to help maintain the pigment.

Kelp Seaweed tablets or powder contain all the minerals and trace elements required by the body, including high iodine and iron content. Many people find it useful to give Kelp from autumn through to spring to help prevent a drop in pigment and to help boost coat growth. The Kelp used is harvested from sustainable deep-sea sources and is tested to ensure it meets our own high quality standards. This supplement also makes a great nutritional supplement!

Our range of natural, herbal supplements can help maintain a healthy pigmentation and coat – especially in the colder months, when your pet needs that bit more support.

Please note: It is necessary to give either product for a minimum of one month to help enhance pigmentation that has been lost, although it may take two or more months to see the maximum results. These products cannot change genetic pigmentation issues.

Elderberry & Nettle

RRP from **£15.50**
(see page 38)

Kelp Seaweed Powder

RRP from **£10.50**
(see page 42)

Kelp Seaweed Tablets

RRP from **£10.90**
(see page 43)

Helping lost dogs find their way home

Through our Dorwest Foundation, we're proud to be supporting Eye In The Sky Drones - a not-for-profit organisation dedicated to reuniting lost dogs with their families.

"It is the best feeling in the world when you can reunite a dog with their owner!"
 Founder, Dave Rimmer

Founded by HM Forces Veteran Dave Rimmer, Eye In The Sky uses specialist drones fitted with thermal cameras to search for missing dogs across Dorset, Hampshire and beyond. With their experience and compassion, they've helped bring countless dogs safely home, even in the most challenging conditions. Whether it's woodlands, fields or cliff tops, their team is ready to help, seven days a week.

One of Dave's success stories made national headlines when Teddy, a 9-year-old Cavapoo, went missing for five days after being spooked by a loud noise. Despite foggy conditions and challenging terrain, Dave launched the thermal drone and located Teddy within just four minutes of flight time. He found Teddy curled up in a ball near a river, with local farmers lending a hand to put him on a lead. Moments later, Teddy was safely reunited with his relieved owners.

We're delighted to help support Eye In The Sky and the amazing work they do —because every dog deserves to find their way home. Be sure to check out their website www.eyeskydrones.com and their blog for more top tips about what to do if you're ever in this kind of situation.

What to do if your dog goes missing

Losing a dog is incredibly stressful, but taking quick and calm action can make all the difference. Here are some top tips to help:

Stay calm and don't chase. As hard as it is, chasing after your dog might make them run further. Try to stay calm and give them space to find their way back.

Create a scent trail. Leave familiar items like your worn clothing or your dog's bed outside — their brilliant noses can pick up the scent from quite a distance.

Use technology. If your dog wears a GPS tracker on their collar or harness, check the app for their last known location. Devices like these can be incredibly helpful in narrowing down a search area.

Get the word out. Put up posters and post on local social media groups. A clear photo and good description will help people know what to look out for.

Speak to your vet and local shelters. Let local vets, animal shelters, and dog wardens know your dog is missing — they're often the first point of contact if someone finds a stray.

Check your microchip details. Make sure your dog's microchip information is up to date and report them as missing to the database.

Set up a feeding station. Leave out food, water and familiar-smelling items near where your dog was last seen — it can encourage them to stay in the area.

Ask for expert help
 Don't be afraid to call in the professionals. Expert teams like Eye In The Sky have the right tools and know-how to give you the best chance of being reunited.

Powders, the perfect partners for feeding raw

Raw feeding has been in the spotlight recently and no wonder, with many of those who choose to feed raw reporting numerous health benefits.

Unlike most kibble, a raw diet can be completely natural and unprocessed, which has seen its popularity soar. It takes feeding dogs back to basics providing what canines would eat in the wild; a mix of meat, offal, bones and sometimes fruit and vegetables. Reported benefits include: better digestion, healthier teeth and gums, easier weight management, firmer stools with little or no odour, and healthier looking skin and coat.

Where do you start with a raw diet?

Raw diets can either be prepared at home, or there are now many companies providing complete raw meal options available to buy. Most adult dogs will eat between 2-3% of their ideal body weight per day - possibly more depending on their activity levels - with puppies needing feeding according to their age and weight, so be sure to look this up if you decide to feed your pup raw.

Whether you're preparing diets at home or buying them in, it is important you follow strict hygiene measures, such as correct storage, safe defrosting and proper hand washing after handling - just as you would handling any raw meat.

Which supplements should you choose, to enhance a raw diet?

When it comes to extra nutritional support for dogs fed raw, our powders are the perfect match. We have lots of options to ensure your canine companion is getting all the vitamins, minerals and trace elements they need.

For all-round and everyday health

Keeper's Mix® is our original and bestselling formulation powder for over 40 years, with a blend of eight herbs, perfectly balanced to provide natural antioxidants (to neutralise free radicals),

vitamins, minerals, chlorophyll, fibres and complex bioactive compounds. **Keeper's Mix® Sensitive** is an even more gentle and milder flavoured version of our original, perfect for those with sensitivities and puppies!

To enhance diets seasonally

During colder months, **Kelp Seaweed** powder is naturally high in iron and iodine to help promote coat growth and pigmentation which may need more support due to reduced sunlight. During the summer, **Easy-Green®** powder has cooling properties and provides maximum nutrients in an easily digestible form, with all the power of super greens to naturally boost levels of iron, vitamin C, chlorophyll, calcium, magnesium, and antioxidants (to neutralise free radicals). Also perfect for enhancing everyday health alongside raw, to add in some greens!

To support digestion

Lastly, **Tree Barks** powder helps keep your pet's tummy naturally comfortable and stools normal with a blend of complementary digestive herbs including Slippery elm bark, Marshmallow root and White poplar bark. Ideal for supporting occasional bouts of diarrhoea to ongoing tummy issues.

All our powders are 100% natural and made with only the highest quality ingredients. Our powder formulations mix effortlessly with the wetter texture of raw meals to help target specific needs or support general health.

For more advice, speak to one of our friendly Customer service team today!

Keeper's Mix®
RRP from £15.90
(See page 41)

Keeper's Mix® Sensitive

REMEMBER!

If your dog is on a kibble diet, just dampen it slightly first, and they'll still mix perfectly.

PARTNER

Introducing Adem Fehmi

We're delighted to announce that we're partnering with accredited dog behaviourist and trainer Adem Fehmi, aka 'Dogtor Adem', for this year's annual calming campaign during fireworks season.

"Dorwest shares my passion for helping dogs to live their best, happiest, and healthiest lives possible."

Adem has loved all things 'dog' since he was a young boy. This led to gaining a degree in Animal Science and becoming a Canine Behaviourist and Trainer. With over 20 years' experience, Adem is CFBA (Canine & Feline Behaviour Association) accredited, a 'Kids Around Dogs Approved' professional, and also an Assessor and Volunteer for Pets as Therapy.

Explore Adem's advice on spotting anxiety and top tips on how to help keep dogs calm this fireworks season.

What are the most common signs of stress and anxiety?

"There are many signs that indicate that your dog is feeling anxious, including: panting, salivating, yawning, shaking, defecating or urinating, chewing or an inability to settle. A dog may also become withdrawn, hyper attached, or even reactive. It is important to observe your dog carefully so that you can recognise any changes in their behaviour."

Why is fireworks season a tough time for pets, and what steps can owners take to help their dogs feel safe and calm?

"Our dogs have inherited extremely well-developed senses from their ancestors to help alert them to danger to keep them safe. Meaning loud noises and flashes of unpredictable fireworks can feel threatening, triggering their flight or fight response and causing stress and anxiety.

Whether your dog already shows signs of stress or currently seems relaxed, it is important to be proactive. Training before fireworks season can help prevent or manage behavioural issues, especially if your dog has recently experienced change, like moving house."

Why do calming supplements work so well alongside training?

"Alongside behaviour training, calming herbal supplements can help your dog to stay relaxed and focussed by supporting their nervous system. Over time they can also assist with helping to create positive associations with situations that may otherwise have induced stress or anxiety.

I have loved Dorwest for several years now, especially since using some of the products to help one of my previous dogs with itchy paws! As a multi award winning brand, Dorwest shares my absolute passion for helping dogs to live their best, happiest, and healthiest lives possible."

Adem's top tips for success this fireworks season:

- 1. Use products that support your dog's nervous system.** Herbal supplements like Dorwest's **Scullcap & Valerian** tablets can help support your dog during anxious periods. Start at least three weeks before fireworks. If your dog is likely to react, use them alongside behaviour work to keep them calm and focused. For extra support on loud nights, add Dorwest's **Valerian Compound**.
- 2. Check dates of local firework displays.** If you know that your dog has an adverse reaction and you cannot avoid the sight and noise from neighbours or local displays, it may be better for your dog to stay elsewhere with a friend.
- 3. Exercise your dog early in the day.** A well exercised dog is more likely to rest and settle than a dog with unspent energy that can turn into anxious energy. If you also exercise early, you are less likely to encounter a firework being let off whilst you are out, which could worry your dog or even cause them to develop a phobia.
- 4. Remain calm.** Avoid making a big fuss about noise as this can unintentionally send a signal to your dog that there is something to be afraid of. Model the desired behaviour by remaining calm.
- 5. Set up a safe and inviting area.** Close curtains or blinds and keep your dog as far away as possible from any fireworks sights and sounds.
- 6. Play calming music.** This can soften the sound of any fireworks that may be let off. I like to play Classic FM loudly until I am sure that the fireworks have finished.
- 7. Distract your dog.** Play games with them or offer a long-lasting chew or fun food dispensing toy. Keep distractions positive and begin to play with them before any fireworks can be heard or seen.

For the full interview please visit [Dorwest.com](https://dorwest.com) and follow us @dorwest for more advice from Adem on keeping your pets calm this fireworks season.

ADVISOR'S CHOICE

Katrina & Sumo

Joining the team in 2021, Marketing Manager Kat tells us why she loves working at Dorwest and how her Japanese Spitz Sumo benefits from natural products.

"Being a lifelong animal lover, working at Dorwest is an absolute dream job being very much the target audience myself. Just before joining the team, we got our first ever dog Japanese Spitz Sumo, and fell in love with him from day 1. We researched dog breed thoroughly for a lovely family pet that liked cats but when he bulldozed into our lives - unknowingly for us in the middle of covid - we were suddenly face to face with a whole new world of dog owner questions and issues!"

"Learning myself from Dorwest about early joint support needed from using **JointWell®** for active dogs, digestive support available for those 'oops!' moments through **Tree Barks** powder, and other natural supplements such as **Garlic & Fenugreek** and **Green Releaf®** tablets to help soothe itchy summer skin, have been complete game changers for Sumo. He's very used to his supplement routine now and they are really easy to mix into his food."

"I thoroughly enjoy planning our annual campaigns with the rest of the team and talking directly to the most important people at Dorwest - our lovely customers. It's always a joy to speak to them face to face every year at Crufts, and understand their needs and wants. Earlier this year we launched **Probiotic Plus** which has received so much amazing feedback in helping to improve gut health. The best part of the job is seeing our product results first-hand, and being truly authentic with our marketing. There's a good reason why Dorwest celebrated its 75th anniversary a few years ago after MD Jo's grandad founded the company in 1948 - the products really work; with some of our loyal customers having bought from us for over 40 years!"

"Lastly, our Customer services team is also so knowledgeable, it's an absolute pleasure to work with them to address any customer questions and translate this back through our marketing channels to build valuable advice needed. I feel very lucky to work with such an amazing brand and people every day!"

"There's a good reason why Dorwest celebrated its 75th anniversary a few years ago... the products really work; with some of our loyal customers having bought from us for over 40 years!"

SUCCESS STORY

“Scullcap & Valerian has been a game changer for Nara”

Nara was found seeking affection at a train station in Ukraine before being rescued and brought to the UK. Now happily settled with her owner, Amy, and with the help of Dorwest, she's gone from a nervous stray to a smiley, loving part of the family - a beautiful reminder of the resilience of rescue dogs!

When Nara arrived in the UK, everyday sights and sounds felt overwhelming. We caught up with Amy to hear how, with time, love, and Dorwest support, Nara has blossomed - gaining confidence and settling her sensitive tummy after a poor start in life.

What made you want to rescue a dog?

Why did you choose Nara?

“We chose to rescue because we wanted to give a chance to a dog who might otherwise be overlooked. While searching for rescues, we came across a little Ukrainian dog with an underbite, and from the moment that we saw her photo and read her story, we knew our hearts were set and that she was destined to be part of our family!”

Did she have any issues adjusting to the UK from Ukraine?

“Everyday things we take for granted were all new to Nara. While she settled at home quickly, she was nervous around unfamiliar sights and sounds, even stairs and the TV were a worry at first. It took time, patience, and lots of encouragement to help her feel safe with things like car rides or passing buses. It was a learning curve for us all, but with consistent training and calming supplements from Dorwest, we've watched her confidence grow! It's been one of the most rewarding parts of our journey together.”

Which Dorwest products have been a real game changer for Nara? And why?

“Nara is extremely noise-phobic, reacting to loud bangs — making firework season and farming time with bird scarers truly traumatic for her. While it's hard not knowing the root cause, Dorwest's **Scullcap & Valerian** and **Valerian Compound** have been a game changer. We use the tablets daily for ongoing calm and the Valerian Compound for trigger moments like Bonfire Night. While we may never be able to remove her fears, they've helped keep Nara calmer in these stressful moments.”

What products would you recommend for other dog owners?

“**Tree Barks** powder is a must-have for us and nicknamed ‘poo glue’ in our household! Nara has a sensitive tum from a poor start in life, and used to suffer regular colitis flare-ups. Now, we use it daily to support her digestion, increasing the dose at the first sign of upset. Combined with Dorwest's **Probiotic Plus**, it's helped us stop flare-ups in their tracks. I'd recommend both for any dog owner!”

Thank you for reading our story!
Amy & Nara 🐾 @naratherescue

Give them the best start, naturally

Designed with the all-important settling in period in mind, our puppy pack is chock-full of goodies to help you transition your little one into their new home.

Developed to provide whole-body benefits with its blend of seven herbs, **Keeper's Mix® Sensitive** is an even gentler and milder flavoured version of our best-selling original, and the perfect all-rounder for puppies! Our **Tree Barks** powder contains three herbs that are renowned for their digestive health properties, to help support your little one's upset tummy, including the stress of leaving their litter mates!

Our **Easy-Green®** powder supplement has all the power of 'super-greens' in an easy-to-give powder. Just add to your pup's normal food for them to get all the benefits of eating a bowl of greens, without a spinach leaf in sight!

Specially formulated for sensitive skin, our nourishing **Soothe & Calm Shampoo** is perfect for delicate puppy skin. With all-natural ingredients, it combines the soothing and hydrating powers of Oatmeal, Aloe vera and Chamomile extract with the calming properties of lavender.

And lastly, did someone say ball? Yes, we did! We know puppies can't resist a ball so enjoy fun games of fetch to help with bonding. And we've even included a Dorwest spoon, to make sure you're always giving the right amount of our supplements to your little one.

Five star joint care

Expertly formulated with vets, **MoveWellia®** was launched in November 2022.

Established quickly as one of our now bestselling products, **MoveWellia®** has incredible 5-star reviews on Trustpilot and from verified Dorwest customers on our website, trusted by pet owners worldwide to help support their dog's joint issues. Named 'top pick' for best overall joint supplement for dogs by the Evening Standard, **MoveWellia®**'s outstanding reputation continues to grow, as one of Dorwest's bestselling supplements and one of the most effective joint support supplements on the market for pets today.

Take a look at some of our testimonials below and give one of our expert team a call today on 01308 897272 to talk about your pet's joint issues.

"A game changer for her"

"Can heartily recommend **MoveWellia®** for seniors with mobility problems. For our 17-year-old whippet, **MoveWellia®** was a game changer for her."
January 2025 ★★★★★

"I have seen major improvements"

"Since starting my dog on **MoveWellia®** I have seen major improvements. We are now going on proper walks again after muscle damage in his legs. He is much happier in himself and back to being playful."
June 2025 ★★★★★

"Wish I'd found these sooner!"

"Such a massive improvement for my 13-year-old girl since going on **MoveWellia®**. She's moving so much better, no longer lying down on walks. Wish I'd found these sooner! And so reasonably priced, definitely recommend."
April 2025 ★★★★★

"She really enjoys her walks again"

"These **MoveWellia®** tablets have made a huge difference for my little dog who has arthritis and had two ligament repairs on her hind legs in the past 3 years. She now really enjoys her walks again and runs, skips and jumps with ease. Someone actually asked me if I had a new dog! With the **MoveWellia®** all of her stiffness appears to have gone. Highly recommend!"
May 2025 ★★★★★

"What a huge improvement"

"I have a 12-year-old who's had arthritis from an early age, I've tried tablets recommended by my vet for years and couldn't see much improvement, then I found **MoveWellia®** - what a huge improvement! My 2 small Cavapoos, one with dysplasia are on them too. So pleased with the huge improvement in my lovely old spaniel. Highly recommend."
December 2024 ★★★★★

Winter topical treats

Keep your pet's skin and coat looking and feeling their best all winter long with our natural topical range.

Filled with natural skin-loving ingredients, the range includes liquid and bar shampoos and balms to suit every pet and skin type.

Specially formulated to support optimal skin and coat health, our shampoo liquids and bars all have nourishing and moisturising properties and are designed to create a creamy lather to help effortlessly clean the coat, but also with good rinsability so no residue is left behind. Each formulation provides targeted support for specific skin (and pet!) types, thanks to their individual natural active ingredients. We have options for every skin type, including our **Soothe & Calm Shampoo** for soothing irritated skin, naturally hydrating **Soft & Serene Shampoo Bar** and **Scent & Shine Shampoo** for unbeatable shine, and for the absolutely most sensitive of skin **Natural & Naked Shampoo Bar** with no essential oils.

For the muckiest pups our **Fox & Flea Shampoo Bar** and **Clean & Fresh Shampoo** remove the stinkiest of smells and also help wash away unwanted parasites.

So, whatever your four-legged friend skin needs, we have bath time covered! And as all are free from artificial colours and fragrances, parabens, SLS, silicone, mineral oil, petroleum and PEGs, you can be sure that you're washing your dog with nothing but natural goodness.

Restore healthy skin with our hand-crafted balms, packed full of calming and nourishing ingredients to soothe cracked noses, paws and irritated skin. Our **Skin Balm** is ideal for pets who suffer with summer allergies, hot spots or for minor grazes and stings, while our **Paw & Nose Balm** helps stop cracked pads and crusty noses.

- Fox & Flea Shampoo Bar** RRP £10.50 (see page 51)
- Natural & Naked Shampoo Bar** RRP £10.50 (see page 51)

Support upset tumms with calming Ginger and Valerian, Rhubarb and Peppermint to aid digestion, and Slippery elm to help soothe and comfort.

RRP from **£10.90**
(see page 37)

Unlock gut health with our digestive range

Runny poos, gurgly tumms and excessive wind...

Whether they just get occasional tummy troubles after eating something they shouldn't or are generally prone to digestive issues, we have a range of products to help.

Loose stools

Loose stools can often be the first thing you notice when your four-legged friend has an upset tummy. Our best-selling **Tree Barks** contains three herbs renowned for their digestive health properties - Slippery elm bark, Marshmallow root and White poplar bark. These work together to coat and soothe the stomach and digestive tract and slow down the passage of food (you'll see the consistency of the fine powder change to blancmange-like when it gets wet!). This helps maintain normal stool consistency and absorption of nutrients.

Gurgling tumms and excessive wind

When the dog really is to blame for nasty niffs, it can be a sign of an unsettled tum. Tree Barks is a great option to help soothe the gut and can be used alongside our **Digestive Tablets**.

With Peppermint and Valerian root to ease bowel activity, Rhubarb and Ginger to aid the digestion as well as soothing Slippery elm bark, Digestive Tablets are a great choice to help settle things down again.

Supporting digestive health

A healthy gut microbiome, which is all the microorganisms that live in the gastrointestinal tract, is essential for digestive health. Our new **Probiotic Plus** provides daily microbiome support to promote normal gut function by boosting the good bacteria in your dog's digestive tract. It can be used to optimise gut health in any dog but for dogs with sensitive tummies and/or loose stools, it is the perfect addition to Tree Barks, for all-round gut support.

Award-winning cognitive care for older dogs

Last year, we were extremely proud to win 'New Product of the Year' in the Health & Hygiene category for BrainCopa® Tablets at the Pet Industry Federation Awards. Our cognitive support supplement was praised by the judges and quoted as 'an absolute gamechanger for senior dogs'.

BrainCopa®

With a range of natural ingredients, BrainCopa® can help your pet better cope with the cognitive changes associated with ageing - giving you and them peace of mind. 99% of trial participants saw overall improvements, with 79% seeing a decrease in restless behaviours.

RRP from £21.50 (see page 36)

As your pet ages it is more prone to health issues, so it's more important than ever for you to take proactive steps to keep them at their best. There are lots of ways you can adapt your care to meet their changing needs and keep them comfortable and happy well into their golden years.

Keep them moving well

All dogs will benefit from additional joint support as they age, and for the 80% of dogs over 8 years which are affected by osteoarthritis¹ this support becomes essential:

- Use a high-quality joint supplement to maintain comfort and mobility. **MoveWellia®** is our award winning advanced joint supplement and delivers powerful natural support for your dog's joints with a blend of proven natural active ingredients. This includes the highest amount of Boswellia extract available for dogs, making it great for dogs that are prone to inflammatory joint conditions.
- Adapt their exercise regime according to their needs.
- Provide easily accessible beds, with enough padding to support their joints.
- Use ramps into cars/ over stairs and non-slip mats on hard floors.

Maintain brain function

¼ of all dogs develop cognitive decline by 8 years old², and the signs associated with this can be some of the most distressing age-related changes for you and your dog. Supporting your ageing dog's cognitive function is therefore vital to maintain a great quality of life:

- Use a supplement specially formulated to support brain health and function, **BrainCopa®** is a unique blend of natural active compounds to provide well-rounded support for normal brain and cognitive function, to keep your pet's mind sharp, including *Ginkgo biloba* which has been shown to minimise the impact of disorientation, and sleep and behavioural changes, as well as *Bacopa monnieri*, a powerful antioxidant which supports the central nervous system, memory and cognitive function.
- Maintain a routine and consistent environment.

- Let them rest - sleep is important for brain function.
- Keep their mind active by teaching new tricks or playing brain stimulating games. Touch or 'chin rest' are great new tricks for older dogs and hiding treats around the room, or playing 'which hand?', are fun and low impact games.

Support digestion

- Feed a healthy and balanced diet, to help maintain their weight and support general digestive health.
- If your dog struggles with digestive issues - whether long-term or occasional bouts - **Tree Barks** powder is perfect to settle things down and maintain normal stools.

Optimise wellbeing and health

- Good vet care is essential, so schedule in regular check-ups to identify any new problems or monitor existing ones.
- For liver support, **Milk Thistle** uses whole fruit extract and are high in silymarin and other active compounds to support and maintain liver function.
- **Scullcap & Valerian** gently calms stressed or anxious dogs who are feeling the effects of age-related changes by supporting the calming pathways within the nervous system, without any drowsiness.

Your older dog may feel the cold more as we head into winter. Remember to pop on a coat or an extra layer before venturing out on cold or wet days.

The Dorwest range is perfect for supporting your older dog, and we are always here to help you find the best product to suit their specific needs.

DORWEST. FOUNDATION

— NATURALLY CARING —

It's all thanks to our wonderful customers that the Dorwest Foundation has been able to help countless animals in need and improve the lives of those that require it most.

Animal health and welfare is truly at the heart of what we do, so we started the Dorwest Foundation as part of our 70th anniversary celebrations, with the aim of helping dogs and cats that are in need of care, health and quality of life improvements.

Since the Foundation launched, we have donated to deserving charities in the form of vouchers, products and much needed funding. We couldn't provide this support without you though, with 10% from every sale of **Keeper's Mix®** and **Keeper's Mix® Sensitive** going towards this charitable fund.

During 2025, we will continue our aid with more amazing charities. Thank you for your continued support, and we look forward to helping even more animals in need over the coming years.

Our green pledge

At Dorwest, we're as passionate about keeping our planet healthy, as we are about keeping pets healthy.

DID YOU KNOW:

You can recycle our tablet pots through your every week domestic recycling collection, and they can also be recycled several times with stable quality!

To make sure that we are doing all that we can to reduce our environmental impact, we're constantly upgrading our green credentials with changes across the entire business.

We strive to make our **delivery packaging 100% plastic free** where we can. This has included switching to loose-fill packaging that is made from corn starch rather than polystyrene, and using bubble wrap that is fully biodegradable.

Whenever possible, we prefer to **use shredded cardboard**, which is created from waste cardboard collected from all areas of the business. If a box needs filling up to protect our products during transit, we use 100% recycled packing paper and boxes are closed up with paper tape, rather than plastic.

In addition to the delivery packaging changes, all of our **mailing wrappers are fully compostable** and our carrier bags are recyclable.

We've also **changed our tablet pots to be bio-plastic**, made from renewable plant-based resources such as sugar cane or corn or other biological resources, providing a more sustainable alternative to raw materials derived from petroleum, still be classified as food grade. These provide the same shelf life and longevity for quality products.

We're proud of our eco-friendly efforts but are always looking for ways to do more, so let us know if you have any ideas.

Our commitment to quality

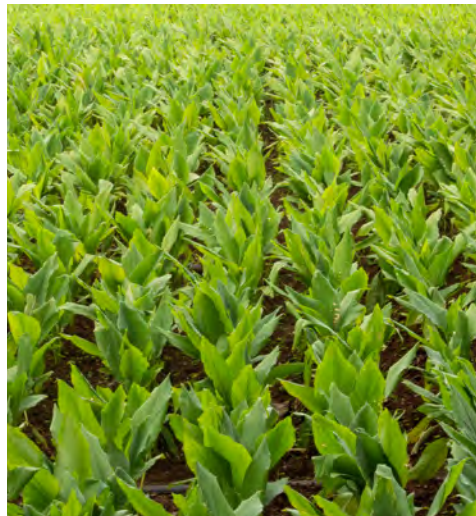

Here at Dorwest, quality matters! From working with our growers to ensure we only use the best ingredients, to personally overseeing the manufacturing process, to delivering great customer service – it's all part of what we do to give your pet the best we can.

A great deal of expertise goes into making our herbal supplements. Our herbs are grown to our specific requirements or collected from wild, sustainable sources – each harvested in exactly the right conditions and at the right time. Where possible, all of our ingredients are fully traceable and are pharmaceutical grade, and we say no to using GM crops or unethical animal testing.

We use the most sustainable and ethical sources we can find and believe that our positive supplier relationships provide us with only the best quality ingredients to help us to deliver the best quality products.

We operate to the highest standards, from planting right through to production and quality assurance, to ensure the safety, purity and efficacy of our products. That means being responsible for everything from the formulation, manufacture, packing and distribution – with each product undergoing rigorous testing at each stage to guarantee quality.

Our products have been used and trusted by pet owners and veterinary professionals worldwide for over 75 years – something we are truly proud of, and it is our aim to continue this. We regularly review our formulations, update them accordingly and are always looking to launch new products to help further support your pets.

Natural support for your pet

Find the perfect match for your pet in our comprehensive range of natural herbal supplements and topical products.

Every single one of our products is carefully formulated with your pet's health and well-being in mind. Using only the highest quality ingredients and herbal extracts, from sustainable sources, we strive for each of our products to be the best that it can be. Our experienced team can help you make the right choice for your pet, by carefully considering their individual needs, and are always on hand if you have any questions. Our product range is designed to look after your pet from the end of their nose to the tip of their tail.

- All our products are suitable to be used from 8 weeks of age, except Tree Barks Powder which can be used from weaning age.
- All our supplements are suitable for long term use.
- Herbal products should be given for a minimum of one month before noticeable improvements are often seen.

- Side effects are rare and there are no known interactions with other medicines. However, if your pet is on any medication for existing conditions, we recommend consulting your veterinary professional before using Dorwest products.
- It is best to give half the daily quantity in the morning and half in the evening.

Prices correct at time of print.

SIZING

When the dosage is based on the size of your pet, please use the following weights as a guide.

Small: <10kg

Medium: 10-25kg

Large: 25-45kg

Giant: >45kg

BRAINCOPIA®

100 tablets RRP **£21.50**
200 tablets RRP **£37.50**

The unique and powerful formulation provides targeted multi-action support promoting normal brain and mental function to help keep your pet's mind agile. This can be especially useful in older pets experiencing cognitive decline and associated symptoms, such as restlessness. With a range of scientifically proven natural ingredients, including DHA powder for brain-friendly essential fatty acids and the renowned 'brain tonic' herb, Bacopa, BrainCopia® provides targeted, multi-action support giving you and them peace of mind. Help keep your dog mentally agile well into their golden years with winner of 'New Product of the Year' at the PIF Awards 2024.

NEED TO KNOW

Active ingredients: Bacopa monnieri 500mg, Ginkgo biloba 500mg, Lemon balm 40mg, DHA powder (algae source) 10mg, Vitamin E 5mg.

Administration:

Small dogs and cats: 1 tablet daily.
Medium dogs: 2 tablets daily.
Large dogs: 3 tablets daily.
Giant dogs: 4 tablets daily.
Can double recommended amounts if required.

Use during pregnancy & lactation: No

COD LIVER OIL

100 capsules RRP **£8.90**
200 capsules RRP **£15.50**
500 capsules RRP **£31.50**

Fish oils are a great source of omega 3 fatty acids - good fats which play a major role in keeping your pet healthy. They are important for skin and coat condition, heart health and maintaining mobile and supple joints, making these slow-release capsules ideal for active or working dogs. Specially formulated to avoid that fishy aftertaste, the capsules are also naturally high in Vitamin D, required for strong bones and the absorption of calcium and Vitamin A. They are particularly beneficial in winter when your pet may need an extra boost.

NEED TO KNOW

Active ingredients: Cod liver oil (fish) 315mg, Gelatin, Glycerol, Vitamin E (antioxidant).

Administration: 1 capsule per 10kgs bodyweight daily.

Use during pregnancy and lactation: Yes

DAMIANA & KOLA

100 tablets RRP **£9.90**
200 tablets RRP **£17.50**

Is your pet feeling a bit lacklustre? Let us help you put a spring back in their step! Using a powerful trio of herbs to increase alertness, vitality and stamina, this supplement is the perfect pick-me-up for pets with low energy levels, such as those recovering from a recent illness or suffering bereavement. It can also give your pet a much-needed boost when they need to perform at their best, such as in the show ring; naturally energising by stimulating the central nervous system.

NEED TO KNOW

Active ingredients: Damiana 230mg, Kola nut 45mg, Saw palmetto 45mg.

Administration: 1-2 tablets per 5kgs bodyweight 2hrs before activity, or daily if required.

Use during pregnancy and lactation: No

DIGESTIVE

100 tablets RRP **£10.90**
200 tablets RRP **£19.50**

All pets will experience a gurgling tum and excess wind at some point in their life - some get an unsettled tum when travelling and others are just more prone to digestive complaints. Our Digestive Tablets help to naturally support digestion and settle tummies, using a unique blend of herbs. Ginger and Valerian calms, while Rhubarb and Peppermint aids digestion and Slippery elm helps to soothe and comfort.

Perfect for use before car journeys, or for longer term support in pets susceptible to gut upsets.

NEED TO KNOW

Active ingredients: Ginger 30mg, Valerian 20mg, Rhubarb 20mg, Myrrh 20mg, Slippery elm bark 10mg, Peppermint oil 0.2mg.

Administration: 1 tablet per 10kgs bodyweight, after meals, or one hour before travelling.

Use during pregnancy and lactation: Yes

EASY-GREEN®

250g powder RRP **£14.50**
 500g powder RRP **£25.50**
 1kg powder RRP **£44.90**
 3kg powder RRP **£104.90**

Our Easy-Green® powder supplement has all the power of 'super-greens' in an easy-to-give powder. Just add to your pet's normal food for them to get all the benefits of eating a bowl of greens, without a spinach leaf in sight! The quick air-drying process retains maximum nutrients in a digestible form to naturally boost levels of iron, Vitamin C, chlorophyll, calcium, magnesium and anti-oxidants (to neutralise free radicals) for all-round health. Particularly beneficial in warmer months, Easy-Green® Powder also has cooling properties to help soothe pets with hot, itchy skin.

NEED TO KNOW

Active ingredients: Finely powdered Spinach, Parsley and Watercress.

Administration: Give daily. Small dogs & cats 1 measure, Medium dogs 2 measures, Large dogs 3 measures, Giant breeds 4 measures (measure included in pack and equivalent to a ½ tsp).

Use during pregnancy and lactation: Yes

ELDERBERRY & NETTLE

100ml bottle RRP **£15.50**
 250ml bottle RRP **£31.50**
 500ml bottle RRP **£54.90**

Have you noticed your pet's nose starting to turn pink? This is often the most obvious sign of pigment loss, which can occur during winter, after oestrus (heat/season), following illness or in old age. Our Elderberry & Nettle liquid supplement uses highly concentrated, full strength extracts which are naturally rich in iodine and iron, both known to help combat pigment loss.

Add to your pet's food for as long as required, it will take around six weeks of daily use to see an improvement as part of the skin's renewal process.

NEED TO KNOW

Active ingredients: Nettle extract, Elderberry extract, Kelp seaweed extract (*Fucus vesiculosus*).

Administration: Give daily. Small dogs & cats ¼ tsp, Medium dogs ½ tsp, Large dogs 1 tsp, Giant breeds 1½ tsp.

Use during pregnancy and lactation: Yes

Precautions: Please use glass pipette carefully to avoid breakage or injury.

EVENING PRIMROSE OIL

100 capsules RRP **£13.90**
 200 capsules RRP **£25.50**
 500 capsules RRP **£56.90**
 1000 capsules RRP **£104.90**

Our Evening Primrose Oil capsules help your pet look like a showstopper. With the highest available levels of the omega 6 fatty acid and gamma linolenic acid (GLA), this supplement helps to enhance skin and coat condition for the glossiest locks around. Omega fatty acids are known to influence skin renewal, dandruff, dryness and coat shine, so this supplement is particularly beneficial for show dogs, long haired breeds or after moulting/ other hair loss. Evening primrose is also well-known for its ability to help maintain a normal hormonal balance, which can otherwise affect behaviour and coat quality.

NEED TO KNOW

Active ingredients: Evening primrose oil 500mg (10% GLA), Gelatin, Glycerol, Vitamin E 4mg.

Administration: 1 capsule per 10kgs bodyweight daily.

Use during pregnancy and lactation: Yes

EVENING PRIMROSE OIL

30ml bottle RRP **£13.50**
 100ml bottle RRP **£29.90**

Ideal for small dogs and cats, our supplement provides all the skin and coat enhancing benefits of evening primrose oil in an easy-to-give oil. Rich in the omega 6 fatty acid and gamma linolenic acid (GLA), which is known to influence skin renewal, dandruff, dryness and coat shine, you can add this supplement to food, give it directly into the mouth or drop it onto the nose to be licked off for showstopping shine. Evening primrose is also well-known for its ability to help maintain a normal hormonal balance, which can otherwise affect behaviour and coat quality.

NEED TO KNOW

Active ingredients: 100% Evening primrose oil (min 9% GLA).

Administration: 1 drop per 2kg bodyweight daily.

Use during pregnancy and lactation: Yes

Precautions: Please use glass pipette carefully to avoid breakage or injury.

GARLIC & FENUGREEK

100 tablets RRP **£10.90**
200 tablets RRP **£18.90**
500 tablets RRP **£39.90**
1000 tablets RRP **£69.90**

A best seller for over 60 years, and a Dorwest customer's favourite, full of natural active compounds that maintain all-round health. Black aged garlic provides soothing and cleansing effects as well as helping to support the body's defences against parasites and infectious agents. While fenugreek contains soothing and antioxidant compounds to neutralise free radicals. The effects of Garlic & Fenugreek Tablets are seen across the body, including the skin, joints and immune system to keep your pet in top condition. They work especially well alongside our Green Releaf® Tablets to help support allergy symptoms, including itchy skin.

NEED TO KNOW

Active ingredients: Black aged garlic extract 30mg, Fenugreek seeds 16mg.

Administration: Initial 3 weeks: 2 tablets per 10kgs bodyweight daily. Maintenance: 1 tablet per 10 kgs bodyweight daily. Amount can be doubled if required. May be crushed for easy administration

Use during pregnancy and lactation: Yes

GREEN RELEAF®

100 tablets RRP **£10.90**
200 tablets RRP **£18.90**
500 tablets RRP **£39.90**
1000 tablets RRP **£69.90**

Naturally support your pet with the soothing, cleansing and pH balancing properties of our Green Releaf® Tablets. With a powerful combination of specially selected whole green plants, these tablets can help to maintain healthy skin, particularly when it is sensitive. They can also be used to help maintain healthy joints and kidneys and as an aid for normal urination through mild water loss - things that owners of older dogs often worry about. Pet owners have also reported seeing a reduction in tear staining and lawn burn.

NEED TO KNOW

Active ingredients: Watercress 70mg, Celery seed 30mg, Horseradish 30mg, Celery plant 30mg, Parsley leaf 20mg, Peppermint 10mg.

Administration: Initial 3 weeks: 2 tablets per 10kgs bodyweight daily. Maintenance: 1 tablet per 10kgs bodyweight daily. Amount can be doubled if required. May be crushed for easy administration.

Use during pregnancy and lactation: Yes

Precautions: Can be given in conjunction with other products, but we always recommend consulting your vet if on existing medications.

JOINTWELL®

100 tablets RRP **£14.90**
200 tablets RRP **£26.90**
500 tablets RRP **£49.90**

Many joint health problems start before your dog shows signs, and all dogs, regardless of age or breed, will experience wear and tear on their joints throughout their lives. Protecting their joints now is the best way to keep them moving long into the future and that's exactly what JointWell® is designed to do. Expertly formulated with vets to help maintain long-term joint health, JointWell's unique combination of proven natural active ingredients promotes a healthy joint environment, supporting suppleness and flexibility for free and comfortable movement.

NEED TO KNOW

Active ingredients: Glucosamine Hydrochloride 250mg (marine), Chondroitin sulphate 100mg (marine), Vitamin C 10mg, Zinc 5mg, Hyaluronic acid 1mg.

Administration: Give daily. Small dogs & cats: 1 tablet, Medium dogs: 2 tablets, Large dogs: 3 tablets, Giant breeds: 4 tablets. We recommend increasing to double for the first month.

Use during pregnancy and lactation: Yes

KEEPER'S MIX®

250g powder RRP **£15.90**
500g powder RRP **£28.90**
1kg powder RRP **£48.90**
3kg powder RRP **£114.90**

Super-boost your pet's diet with our best-selling Keeper's Mix® dietary supplement. Especially formulated using a blend of eight herbs, this supplement is perfectly balanced to provide natural antioxidants (to neutralise free radicals), vitamins, minerals, chlorophyll, fibres and complex bioactive compounds. Keeper's Mix® promotes all-round health, supporting vital organs and maintaining natural balance in your pet's body, as well as encouraging a thick and healthy coat. Ideal for all dogs as an all-round boost or to provide extra nutritional support for working dogs, animals performing at high levels or those experiencing physical demands.

NEED TO KNOW

Active ingredients: Kelp seaweed, Celery plant, Lucerne (alfalfa), Nettles, Rosemary, Psyllium husks, Clivers and Wild yam root.

Administration: Give daily. Small dogs & cats 1 measure, Medium dogs 2 measures, Large dogs 3 measures, Giant breeds 4 measures.

Measure included in pack and equivalent to ½ tsp. Introduce gradually to the feed to improve acceptability.

Use during pregnancy and lactation: Yes

KEEPER'S MIX® SENSITIVE

250g powder RRP **£15.90**
500g powder RRP **£28.90**
1kg powder RRP **£48.90**
3kg powder RRP **£114.90**

**DORWEST
FOUNDATION**
10% of the profit
from this product goes
to charity through the
Dorwest Foundation

A new, even more gentle version of our best-selling original Keeper's Mix® supplement. Developed to provide whole-body benefits and suitable for young cats or dogs, or those with known sensitivities. Especially formulated using a blend of seven herbs - five from the original formula and two new additions. German chamomile is well known for its calming and balancing properties and Marshmallow root is traditionally used for its soothing effect on the gut, making this mix perfect for immature guts or pets that are prone to gut upsets. A milder flavour means that even sensitive palates are catered for!

NEED TO KNOW

Active ingredients: Kelp seaweed, Marshmallow root, Lucerne (alfalfa), Nettles, Psyllium husks, Clivers and German chamomile.

Administration: Give daily. Small dogs & cats 1 measure, Medium dogs 2 measures, Large dogs 3 measures, Giant breeds 4 measures.

Measure included in pack and equivalent to 1/2 tsp. Introduce gradually to the feed to improve acceptability.

Use during pregnancy and lactation: Yes

KELP SEAWEED

250g powder RRP **£10.50**
500g powder RRP **£17.90**
1½kg powder RRP **£42.90**

Even through winter, keep your pet looking their best with our Kelp Seaweed Powder, which promotes thicker coat growth and stronger pigmentation.

We use a special variety of kelp, Fucus vesiculosus, which is packed full of the 37 minerals and trace elements that your pet needs, making it a great all-round nutritional supplement. We only use kelp harvested from sustainable deep-sea sources and it's tested to ensure it meets our own high quality standards. For a higher strength preparation try our Kelp Seaweed Tablets.

NEED TO KNOW

Active ingredients: Kelp seaweed (Fucus vesiculosus).

Administration: Add 1 tsp per 10kgs bodyweight to feed daily.

Use during pregnancy and lactation: Yes

KELP SEAWEED

100 tablets RRP **£10.90**
200 tablets RRP **£18.90**
500 tablets RRP **£39.90**

Keep your dog in peak condition by providing all the minerals and trace elements that they need with our Kelp Seaweed Tablets. These are our highest strength kelp seaweed product, and are now double concentration for maximum effect. With naturally high levels of iron and iodine for strong coat and skin pigmentation, these tablets are perfect to help keep your pet looking their best. We only use kelp harvested from sustainable deep-sea sources and it's tested to ensure it meets our own high quality standards.

NEED TO KNOW

Active ingredients: Kelp seaweed 500mg (Fucus vesiculosus).

Administration: 1 tablet per 10kgs bodyweight daily.

Use during pregnancy and lactation: Yes

Precautions: For animals up to 5kg we recommend crushing the tablet and giving a proportionate amount. Give sparingly during hot weather to animals that are prone to inflammatory skin problems associated with over-heating.

MALTED KELP

100 tablets RRP **£10.90**
200 tablets RRP **£18.90**

Our Malted Kelp Tablets are packed full of tasty and nutritious ingredients and are specially formulated to help tempt picky eaters to devour their dinner.

Aniseed aids digestion and adds extra flavour while kelp provides all the essential micronutrients required by your pet. Malt extract is high in energy and Vitamin B - known to stimulate appetite - making this supplement ideal for pets with poor appetites or recovering from illness and in need of a boost.

NEED TO KNOW

Active ingredients: Kelp seaweed 360mg, Malt 90mg, Aniseed 1mg.

Administration: 1-2 tablets per 5kgs bodyweight daily, before food.

Use during pregnancy and lactation: Yes

MILK THISTLE

100 tablets RRP **£18.50**
200 tablets RRP **£32.50**
500 tablets RRP **£64.90**

Help maintain good liver function in your pet with our high-grade Milk Thistle Tablets. The liver is the ultimate multi-tasker - involved in the production of essential proteins, immunity, nutrient storage, and removing and neutralising toxins from the circulation.

Our supplement naturally supports the liver, using pure milk thistle from whole fruit extract. It is high in silymarin, but also benefits from the other active compounds found in milk thistle fruits, such as linoleic acid, flavonoids, and Vitamin E, which are all known for their antioxidant (neutralise free radicals) and immune supportive action.

NEED TO KNOW

Active ingredients: Milk thistle extract 100mg (80% silymarin).

Administration: 1 tablet per 5kgs bodyweight daily, split into at least 2 amounts during the day.

Use during pregnancy and lactation: No

Precautions: Can be given in conjunction with other products, but we always recommend consulting your vet if on existing medications.

MOVEWELLIA®

100 tablets RRP **£20.90**
200 tablets RRP **£37.50**
500 tablets RRP **£69.90**

Advanced joint care for dogs experiencing joint health challenges, including stiffness and 'slowing-up'. MoveWellia® has been expertly formulated with vets to deliver powerful joint support to maintain comfort and mobility. The combination of proven natural active ingredients includes Boswellia, containing 90% boswellic acid, which supports the natural anti-inflammatory pathways in the body. Manufactured to the highest GMP standards and using only the finest sustainable-sourced ingredients, you can trust MoveWellia® to get, and keep, your dog moving naturally again.

NEED TO KNOW

Active ingredients: Glucosamine hydrochloride (marine) 250mg, Chondroitin sulphate (marine) 150mg, Boswellia serrata 55mg (90% Boswellic acid), Vitamin C 15mg, Zinc 10mg, Celery seed 10mg, Hyaluronic acid 2mg.

Administration: Give daily. Small dogs & cats: 1 tablet, Medium dogs: 2 tablets, Large dogs: 3 tablets, Giant breeds: 4 tablets. We recommend increasing to double for the first month.

Use during pregnancy and lactation: No

NEUTRADOG®

100 tablets RRP **£11.50**
200 tablets RRP **£19.90**

The ideal supplement for whiffy canines, Neutradog® Tablets can be used for bitches in season, dogs with bad breath, smelly yeasty skin and for older dogs.

Using a powerful combination of chlorophyllin, parsley, seaweed and mint, it helps to reduce odours in the body, before they are released! Chlorophyllin (the water-soluble version of chlorophyll) helps to neutralise smells by absorbing odour causing compounds. Parsley is also packed with chlorophyll, for a double hit. Seaweed helps to absorb toxins and the mint neutralises nasty niffs!

NEED TO KNOW

Active ingredients: Kelp seaweed (Fucus vesiculosus) 100mg, Parsley leaf 50mg, Peppermint 40mg, Sodium copper chlorophyllin 15mg.

Administration: 1 tablet per 10kg bodyweight daily. Can increase to double the amount if necessary.

Use during pregnancy and lactation: No

OMEGA STAR®

500ml bottle RRP **£24.90**
500ml x 6 bottles RRP **£119.00**

Our Omega Star® oil is ideal for pets who want to look their best and to support those with skin conditions.

Containing a naturally balanced blend of omega oils and Vitamin E, it nourishes and soothes the skin while supporting quality coat growth and shine. Flax seed oil, blackcurrant seed oil and borage seed oil are all rich in omega 3 and 6 oils, which are important in regulating skin renewal, reducing scurfiness, soothing sensitive skin and improving coat condition. Vitamin E is a powerful antioxidant (neutralises free radicals), perfect for maintaining the skin's natural defences.

NEED TO KNOW

Active ingredients: Pure unrefined Flax seed oil, Borage seed oil, Blackcurrant seed oil and natural Vitamin E.

Administration: Small dogs: 2.5ml, Medium dogs: 5ml, Large dogs: 7.5ml, Giant dogs: 10ml. Add to your dog's food daily, start by using a smaller amount for the first few days and increasing to the recommended quantity.

Use during pregnancy and lactation: No

NEW PRODUCT

PROBIOTIC PLUS

100 capsules RRP **£20.90**
200 capsules RRP **£36.50**
400 capsules RRP **£69.90**

Probiotic Plus provides daily microbiome support for optimal gut health, utilising the benefits of a pre, pro and postbiotic. Formulated by nutritionists and vets for maximum benefits, it effectively promotes normal gut function by supporting the good bacteria in your dog's gastrointestinal tract. It includes the probiotic Calsporin®, a robust soil-based organism (SBO) which has been tested for safety and efficacy and has been proven to improve stool consistency in dogs.

For dogs with sensitive tummies and/or loose stools, Probiotic Plus is the perfect addition to Tree Barks, for all-round gut support.

NEED TO KNOW

Active ingredients: Calsporin® Bacillus subtilis C-3102 DSM 15544 1.0 x 10⁹ CFU per capsule, Bifidobacterium longum CECT 7347 1.0 x 10⁹ heat treated cells per capsule, fructo-oligosaccharides (FOS), Inulin.

Administration: Small dogs 1 capsule per day, Medium dogs 2 capsules per day, Large & giant dogs 3 capsules per day. Capsules can be given whole or pulled apart and sprinkled on food.

Use during pregnancy and lactation: Yes

Interactions: Can be given in conjunction with other medication.

RASPBERRY LEAF

100 tablets RRP **£10.90**
200 tablets RRP **£18.90**
500 tablets RRP **£39.90**

A popular birth-aid with breeders, the use of raspberry leaf in pregnancy is documented as far back as the 6th century and is still recommended by health and veterinary professionals today. When used in pregnancy, raspberry leaf helps to tone and maintain the strength of the muscles of the uterus in preparation for whelping/kittening. It is also known for its hormone balancing properties, and so our tablets are helpful for supporting bitches who experience phantom pregnancies.

NEED TO KNOW

Active ingredients: Raspberry leaf 450mg.

Administration: During pregnancy: 1 tablet per 10kgs bodyweight daily from third week of gestation until one week after whelping or kittening. To prevent false pregnancy: 2 tablets per 10kgs bodyweight daily from the start of the season for 12 weeks.

Use during pregnancy and lactation: Yes

SCULLCAP & VALERIAN

100 tablets RRP **£12.90**
200 tablets RRP **£22.90**
500 tablets RRP **£45.90**
1000 tablets RRP **£79.50**

Our Scullcap & Valerian Tablets help to relax your pet, with the active herbs naturally supporting the calming pathways within the nervous system, reducing anxiety without making pets drowsy or wobbly. In fact, they are widely used for agility and show dogs when they need to be alert and focussed yet calm. Our Scullcap & Valerian Tablets help tackle stress, fear and anxiety, whatever the cause, with best effects seen when used over time and alongside gentle behavioural training - so you and your pet can relax, no matter what.

NEED TO KNOW

Active ingredients: Valerian root 250mg, Mistletoe 150mg, Gentian 48mg, Scullcap 30mg.

Administration: 1 tablet per 5kgs bodyweight daily, increase to double as and when required. Recommended to be used daily for at least 3 weeks. Ideally give half the daily amount in the morning and half in the evening.

Use during pregnancy and lactation: No

TREE BARKS

100g powder RRP **£14.90**
200g powder RRP **£25.90**
400g powder RRP **£46.50**
1kg powder RRP **£94.40**

A blend of three complementary herbs that provide effective digestive support, for comfortable tummies and normal stools. Slippery elm bark, white poplar bark and marshmallow root work together to help slow the passage of food and encourage normal absorption of nutrients. A transformation from fluffy powder to a blancmange-like substance allows it to coat and soothe the digestive tract, naturally aiding digestion. Ideal for use in pets of all ages, both long-term for ongoing tummy troubles, and those with short-term upsets caused by eating something they shouldn't have!

NEED TO KNOW

Active ingredients: Finely powdered Slippery elm bark, Marshmallow root, and White poplar bark.

Administration: 1 tsp per 10kgs bodyweight daily. Add to food, live yoghurt, or mix with liquid. Can be increased or given with each feed if required for more severe cases.

Use during pregnancy and lactation: Yes

Precautions: Due to the wide range of intestinal disorders, some of which may be serious, it is recommended that veterinary advice be sought before using this product or if the condition fails to improve.

TURMERIC

100 tablets RRP **£21.50**
200 tablets RRP **£38.90**
500 tablets RRP **£75.90**

Our specially formulated Turmeric Tablets are made using a pure and potent extract. Consisting of 95% curcuminoids - the active part of turmeric - they can help support your pet's natural anti-inflammatory processes. Extracted from whole root and grown in Southern India using sustainable small farming methods, this source of turmeric is renowned for its purity and full traceability. We've added Bioperine® (black pepper extract) to help boost absorption, so you can be sure that our supplement has maximised bioavailability.

NEED TO KNOW

Active ingredients: Powdered Turmeric root extract 175mg (Equivalent to 7175mg of dry turmeric root), Bioperine® (Black pepper extract) 2mg.

Administration: Give daily. Small dogs and cats 1 tablet, Medium dogs 2 tablets, Large and Giant breeds 3 tablets. Give with food to improve bioavailability. For the first week it can be advisable to start at a lower dose and build up.

Use during pregnancy and lactation: No

Precautions: Always consult your vet before administering if on medication, especially anti-coagulants or before an operation.

VALERIAN COMPOUND

30ml bottle RRP **£12.90**
100ml bottle RRP **£28.90**

Calm your stressed, hyperactive or frightened pet quickly with our fast-acting Valerian Compound. Containing pure extracts of three herbs in liquid form, it acts within just 30 minutes with effects lasting for up to two hours – perfect for short term use. It can be dropped straight into the mouth, or given on food to help make any event instantly less stressful.

It's non-drowsy and even our fussy feline friends love the smell, making it super easy to use. It can be used in conjunction with our Scullcap & Valerian Tablets for situations that have a longer duration or for especially frightening situations.

NEED TO KNOW

Active ingredients: Vervain, Valerian, Mistletoe extracts.

Administration: Small dogs & cats 1.25ml, Medium dogs 2.5ml, Large dogs 5ml, Giant breeds 7.5ml, given when required. It is not recommended that more than two lots of the above amounts be given in a 24 hour period.

Use during pregnancy and lactation: No

Precautions: Caution should be taken when administering to exotic cats with low body fat, as very occasionally hyperactivity has been induced. Please use glass pipette with care to avoid breakage or injury.

WHEATGERM OIL

100 capsules RRP **£9.50**
200 capsules RRP **£16.50**
500 capsules RRP **£31.50**
1000 capsules RRP **£54.90**

Wheatgerm oil is naturally rich in Vitamin E, a potent antioxidant which neutralises free radicals. Free radicals are produced as a by-product of everyday cell functions, so a plentiful supply of Vitamin E is beneficial to keep them in check. Our Wheatgerm Oil Capsules can be given year-round to help promote a healthy skin and coat and are also used to maintain fertility and a healthy reproductive system in both male and female pets.

NEED TO KNOW

Active ingredients: Wheatgerm oil (gluten) 281mg, Gelatin, Glycerol.

Administration: 1 capsule per 10kgs bodyweight daily. For the 7 days prior to mating give to both male and female, doubling the amount given on the day before and day of mating. Females should continue with Wheatgerm Oil for three weeks following mating to provide support to the foetuses.

Use during pregnancy and lactation: Yes

WHEATGERM OIL

100ml bottle RRP **£10.50**
500ml bottle RRP **£28.50**

Our Wheatgerm Oil liquid delivers high levels of Vitamin E in an easy-to-give, premium grade liquid. Just add it to your pet's food for them to benefit from the powerful natural antioxidant action of Vitamin E, which neutralises free radicals that are produced as a by-product of everyday cell functions. Our Wheatgerm Oil Liquid can be given year-round to help promote a healthy skin and coat and is also used to maintain fertility and a healthy reproductive system in both male and female pets.

NEED TO KNOW

Active ingredients: 100% cold extracted Wheatgerm oil.

Administration: Give daily. Small dogs & cats ¼ tsp, Medium dogs ½ tsp, Large dogs 1 tsp, Giant breeds 1½ tsp.

Use during pregnancy and lactation: Yes

Precautions: Please seek our advice before giving alongside other vitamin supplements. Please use glass pipette with care to avoid breakage or injury.

Shampoos, balms & toothpaste

Our range of topical products are perfect to keep your pet's coat, skin and teeth in tip-top condition.

Our shampoo range including liquids and bars, only uses the highest quality, natural ingredients to ensure the perfect balance to enhance your pet's coat condition and shine. Our nourishing balms have become a staple for many pet owners, especially formulated to naturally soothe dry skin, and cracked noses or paws. And our Roast Dinner Toothpaste helps keep teeth and gums healthy, with its gentle formulation developed specifically for pets and a taste they'll love.

Prices correct at time of print.

SOFT & SERENE DOG SHAMPOO BAR

90g bar RRP **£10.50**

Restore calm with our Soft & Serene Shampoo Bar, with a divine floral scent layered with fresh and earthy undertones. With a real scent of nature, Soft & Serene is specially formulated for dogs prone to itchy, irritated and sensitive skin. With borage oil and chamomile and lavender essential oils, alongside a base blend of shea butter and coconut, sunflower, castor and sweet almond oils, these highly nourishing and soothing natural ingredients support optimal skin health, so your dog can wave goodbye to flaky, dry skin.

NEED TO KNOW

Ingredients: Coconut oil, Shea butter, Olive oil, Sunflower oil, Castor oil, Sweet almond oil, Borage oil, Chamomile essential oil, Lavender essential oil.

Administration: Massage into wet coat and rinse thoroughly. Ensure the bar is completely dry before storing.

WARNING: contains nuts (Sweet almond oil).

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

FOX & FLEA DOG SHAMPOO BAR

90g bar RRP **£10.50**

Our Fox & Flea Shampoo Bar keeps your four-legged friend clean with a luscious fresh and minty scent, complemented by warm and woody citrus notes. Nettle, and eucalyptus, peppermint and lemongrass essential oils help deep clean and counteract even the most unpleasant odours, so you can be confident that this shampoo bar has got your (and their!) back - even the fox poo rollers! Great for helping to wash away irritants like dust, dirt, and unwanted parasites.

NEED TO KNOW

Ingredients: Coconut oil, Shea butter, Olive oil, Sunflower oil, Castor oil, Sweet almond oil, Nettles, Eucalyptus essential oil, Peppermint essential oil, Lemongrass essential oil.

Administration: Massage into wet coat and rinse thoroughly. Ensure the bar is completely dry before storing.

WARNING: contains nuts (Sweet almond oil).

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

NATURAL & NAKED PET SHAMPOO BAR

90g bar RRP **£10.50**

Our Natural & Naked Shampoo Bar's stripped-back and simple formula makes it ideal for the most sensitive skin, with its exquisite subtle aromatic, earthy notes. With no essential oils, it is ideal for any pet, including those who may be prone to allergies, puppies and cats who can be more susceptible to essential oils. Containing calendula oil, and a base of shea butter and coconut, sunflower, castor and sweet almond oils, it is highly moisturising and nourishing for flake-free, healthy skin.

NEED TO KNOW

Ingredients: Coconut oil, Shea butter, Olive oil, Sunflower oil, Castor oil, Sweet almond oil, Calendula oil.

Administration: Massage into wet coat and rinse thoroughly. Ensure the bar is completely dry before storing.

WARNING: contains nuts (Sweet almond oil).

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

CLEAN & FRESH DOG SHAMPOO

250ml bottle RRP **£9.90**
500ml bottle RRP **£17.50**

Our Clean & Fresh Dog Shampoo uses the minty scent of black peppermint, alongside eucalyptus and lemongrass essential oils, this shampoo helps to keep your pet's coat fresh and clean. It has good rinsability with no residue remaining after washing. Use Clean & Fresh Dog Shampoo regularly and you should find that fleas simply don't want to hang around on your pet!

NEED TO KNOW

Ingredients: Black peppermint, Eucalyptus and Lemongrass essential oils, Aloe vera and Chamomile extracts.

Administration: Wet coat thoroughly with warm water, apply shampoo using hands and massage over the whole body but avoiding the eye, ear and nose area. Leave on for a few minutes before rinsing thoroughly. Not for internal use.

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

SCENT & SHINE DOG SHAMPOO

250ml bottle RRP **£9.90**
500ml bottle RRP **£17.50**

Our Scent & Shine Dog Shampoo enhances shine while leaving behind a beautiful, uplifting scent which we know you and your dog will love! The gentle formulation combines the hydrating and soothing properties of chamomile extract and aloe vera, with a range of powerful essential oils. Rose geranium soothes and balances the skin, blood orange enhances coat shine and reduces redness while jasmine heals and moisturises.

NEED TO KNOW

Ingredients: Rose geranium, Blood orange and Jasmine essential oils, Aloe vera and Chamomile extracts.

Administration: Wet coat thoroughly with warm water, apply shampoo using hands and massage over the whole body but avoiding the eye, ear and nose area. Leave on for a few minutes before rinsing thoroughly. Not for internal use.

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

SOOTHE & CALM DOG SHAMPOO

250ml bottle RRP **£9.90**
500ml bottle RRP **£17.50**

Specially formulated for sensitive skin, this nourishing shampoo provides welcome relief to all pets. It helps to restore, moisturise and rebalance their skin by combining the soothing and hydrating powers of aloe vera, chamomile extract and oatmeal with the calming properties of lavender extract. This shampoo works harmoniously with their skin and by using no artificial colours, fragrances or chemical foaming agents*, it's both natural and hypoallergenic.

From helping to soothe dry, irritated or flaky skin, to maintaining healthy skin and a glossy coat, this shampoo provides the perfect pamper treat for your pet.

NEED TO KNOW

Ingredients: Oatmeal, Lavender essential oil, Lavender, Aloe vera and Chamomile extracts

Administration: Wet coat thoroughly with warm water, apply shampoo using hands and massage over the whole body but avoiding the eye, ear and nose area. Leave on for a few minutes before rinsing thoroughly. Not for internal use.

*Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

ROAST DINNER TOOTHPASTE

200g jar RRP **£13.90**

Your pet will love this tasty toothpaste which has been specifically developed alongside veterinary professionals. The low-foaming and gentle formulation cleans teeth without damaging enamel, unlike human toothpastes, which are too harsh for our four-legged friends. Containing sage oil which is a potent antiseptic and anti-oxidant (to neutralise free radicals), it helps to keep those gums fresh and healthy. Brushing your pet's teeth regularly keeps their mouths healthy by helping to prevent the build-up of dental plaque which can lead to tartar, eventually causing gum disease and tooth damage.

NEED TO KNOW

Ingredients: Chalk, Fine pumice, deionised Water, Glycerol, Laponite, Sodium lauryl sulphate <0.5%, Sodium benzoate <0.3%, Liver flavour, Sage oil.

Administration: Apply with a soft toothbrush; for smaller dogs and cats a piece of muslin cloth or cotton bud may be more acceptable. Not harmful if swallowed but a drink of water after cleaning is advisable.

Use during pregnancy and lactation: Yes

PAW & NOSE BALM

50ml tin RRP **£12.90**

Our ultra-nourishing balm is perfect for softening crusty noses and soothing sore, cracked pads. With no added fragrance it's ideal for those highly sensitive doggy noses and of course, it's also lick-safe. The soothing infusion of herbs in natural oils work to nourish the skin:

Calendula: softening, aids skin repair and helps to calm irritation.

Marshmallow: nurtures and protects the skin.

Chickweed: softening with soothing and calming properties, perfect for itchy and sensitive skin.

Combined with natural beeswax and nourishing shea butter, this balm is a pot of pure goodness.

NEED TO KNOW

Ingredients: Calendula in sunflower oil, Marshmallow in jojoba oil, Chickweed oil, Shea butter, Beeswax.

Administration: Apply regularly to noses and clean paws.

Use during pregnancy and lactation: Yes

SKIN BALM

50ml tin RRP **£12.90**

Our hand-crafted, lick-safe skin balm is incredibly versatile and perfect for irritated, dry or problem skin. The soothing infusion of herbs in sunflower and jojoba oils work to nourish the skin:

Comfrey: moisturising, helps to stimulate cell growth and maintain skin elasticity. Ideal for small scrapes and bruises.

Calendula: softening, aids skin repair and helps to calm irritation. Perfect for inflamed skin.

Chamomile: calming for sensitive skin.

With lavender, rose geranium and mandarin oils blended with natural beeswax and nourishing shea butter, for the ultimate skin treat for your pet.

NEED TO KNOW

Ingredients: Sunflower oil, Jojoba oil, beeswax, Shea butter, Calendula, Comfrey, Chamomile, Rose geranium, Lavender & Mandarin essential oils.

Administration: Apply regularly until all signs of soreness, dryness or irritation have disappeared.

Use during pregnancy and lactation: Yes

NEW FORMULA

DORWEST HOMOEOPATHICS

15ml bottle RRP **£11.50**

ARNICA 30C

An essential item in every first aid kit. Extremely useful to counteract the distress and agitation that follows any fearful occurrence or fright. Commonly used in a wide range of emergency situations and to support bruising.

CAULOPHYLLUM 30C

Offers support during whelping and kitting.

EUPHRASIA 15C

Derived from the plant Eyebright, this remedy is primarily used to keep eyes clear and bright. Particularly useful when these are sticky and sore.

FRAGARIA 3C

To soften and aid the removal of tartar on encrusted teeth and to slow down and prevent the formation of new plaque deposits.

GELSEMIUM 30C

For fear and fright and also effective in reducing sex drive in males, so ideal for use if a female in season nearby is causing over excitement.

HEPAR SULPH 30C

Has a number of uses but is especially helpful for smelly, gungy ears.

PULSATILLA 15C

Gives support to maintain health following phantom pregnancy and also helpful to soothe the mouth, throat and tender gums.

RHUS TOX 6C

One of the most popular homoeopathic remedies – helps maintain healthy joints and mobility and is ideal to give with herbal treatments for optimum benefits.

SULPHUR 30C

Ideal for intense, itchy skin and can support with flea allergies and with many other skin conditions, especially if allergy related.

SYMPHYTUM 15C

Being prepared from Comfrey herb, whose old country name is Knitbone, it's not surprising that this remedy supports healthy ligaments and tendons, particularly following a strain or sprain.

URTICA URENS 3C

Prepared from the nettle herb at a low dilution, this is ideal for the mum after a litter and helps to support the natural bodily process of less milk production when weaning the youngsters away from her.

URTICA URENS 30C

Another homoeopathic first aid remedy prepared from Nettle herb and used for nettle rash and insect bites. Supports healthy milk flow in lactating females.

Administration: Severe conditions: 3-5 drops in food, or by mouth, up to 3 times daily. Chronic conditions: 3-5 drops in food, or by mouth, up to twice daily.

The A to Z for keeping your dog healthy

Using our 75 years of experience in naturally supporting pet health, we have put together a quick reference guide of common problems your pet may face.

Our experienced advisors are always on hand to give advice on general pet health and recommend the best products for your pet, but our quick reference guide can be a good starting place. It can help you quickly and easily find the most suitable products for your pet from our range of professionally formulated herbal supplements and topical preparations. For more in depth advice and information, you can head over to www.dorwest.com/pages/common-problems where you will find a more detailed A-Z and also our blog, which has a huge library of articles with a wealth of information on pet health and wellbeing. Alternatively, you can always call to speak to a member of our team for help – we always love to hear from you!

What our customers say

With over 75 years' experience we hope by now we have got a few things right. Nothing pleases us more than hearing from a happy customer, especially when they also take the time to send in photos of their happy pet, and we can see what a difference our products have made. Here is just a selection of what some of our customers say.

"We've been using Dorwest **Digestive Tablets** for Prince, our 9-year-old Cavalier King Charles x Jackapoo who has always struggled with car sickness. After years of trying different solutions, these tablets have been so effective and made car journeys so much easier. Prince also takes **JointWell**® tablets, which have given him a noticeable spring in his step! We've also started our energetic 2-year-old Collie, Feyre, on **JointWell**® too to support her joints early on. Feyre also gets anxious in the car, so we have recently started using the **Valerian Compound**. We've only used it a couple of times but have noticed she's far more settled than before! Thank you so much for creating such incredible products!"
Ella, Prince & Feyre

"I was introduced to Dorwest by a friend, and I'm so glad I found them! My dog Oscar struggled with IBS for years, resulting in numerous vet visits with no solution - but the Dorwest **Digestive Tablets** changed everything. Within a week, his bowel movements improved, and his flare-ups decreased. Since starting the new **Probiotic Plus** after Crufts 2025, he hasn't had a flare-up at all! I'm so relieved to see him happy and pain-free. Thank you, Dorwest!"
Lucy & Oscar

"Our Husky-cross, Fred, is a Canicross dog so preventing any joint problems is essential for us, alongside the best food and gear, we make sure he gets only the best supplements. That's why we chose **MoveWellia**®! Since starting on **MoveWellia**®, Fred's recovery after runs has been noticeably quicker, and he's still racing strong and pain-free. Most importantly, he's still playing like a pup with his rescue brothers at home. A must-have for any active dog!"
Jack & Fred

"We've been using **Garlic & Fenugreek** and **Green Releaf**® tablets for over 6 months now, as Lady has suffered with itchy hot spots since she was a pup. She no longer suffers with itching now and you can see she is so much happier and settled! We also give her the **Hepar Sulph 30C** as she has always suffered with gungy ears. These drops have worked wonders, and she hasn't had an ear infection since! We can honestly say Dorwest has improved Lady's health and wellbeing and will always be a staple in our house."
Sophie & Lady

If you have any feedback on our products be sure to let us know, just email us at info@dorwest.com!

Ask the advisor

When making an important decision about the health of your pet, the last thing you want to do is use guesswork. That's why Dorwest advisors are always on hand to help.

The personal touch

Our UK-based advisors are available Monday to Thursday from 9am until 5pm, and Friday 9am to 4pm on **01308 897272**. You can also speak to us on the Dorwest trade stand at canine events across the country, including Crufts and PATS. Alternatively drop us an email at **advice@dorwest.com** and we'll get back to you within 24 hours during the working week.

Expect to make contact with a real person and have a genuine conversation. All of our trained advisors love and know all about animals and their one aim will be to provide you with the information you need. That's right – no hard sell, no being passed from pillar to post, just a straight forward recommendation tailored to your pet.

Social media

You can connect with us and be part of our social community on Facebook, Instagram & TikTok. We run fact-packed Facebook and Instagram Live Q&A sessions with our MD Jo on a regular basis and we also have a private Facebook group which you can request to join 'Dorwest Group – Experts in herbal pet care'.

Like us, follow us and share with us at:
